

Fall

Celebrating the season at Brooke 2 Pre-K

The children enjoyed a week of studying pumpkins in the classroom. The pumpkin investigation included a time to describe the inside and outside of the pumpkin along with separating the pulp from the seeds. The children then counted the seeds and completed a chart of their findings. They were so interested and excited about the lesson that they continued the learning opportunity into the next week. Contact Ashley, Brooke 2 Pre-K Teacher, for details, 304.394.5362 or brooke2@npheadstart.org.
